INDEX TO VOLUME 19

A

Abbott, Osler A. Discussion of acquired nonmalignant esophagotracheobronchial fistula, 556

Experiences with surgical resection of human carina, tracheal wall, and contralateral bronchial wall in cases of right total pneumonectomy, 906

Abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, combined (Kent and Harbison), 559

Acidosis during thoracic surgery (Beecher and Murphy), 50

Actinomyces in putrid empyema (Rabin and Janowitz), 355

Adams, Herbert D. Discussion of acquired nonmalignant esophagotracheobronchial fistula, 557

Transthoracic thyroidectomy, 741, 753

Adams, William E. Discussion of surgical treatment of bronchiectasis, 265

Discussion of symposium on resection of the esophagus, 539

(with Bogardus, George M., and Phillips, Francis J.). Bronchiogenic carcinoma. II. Correlation of pathologic characteristics and clinical manifestations in unresectable and unexplored post-mortem lung tumors, 699

(with Phillips, Francis J., and Basinger, Clair E.). Bronchiogenic carcinoma. I. Pathologic clinical correlative study of full-size mounts from operated carcinomas, 680

Adelman, Milton H. (with Berman, Robert A., and Touroff, Arthur S. W.). New method of automatic controlled respiration, 817

Adenocarcinoma of lung, mucocellular papillary; lobectomy, five year follow-up (Osserman and Neuhof), 875

Adenomatosis, pulmonary alveolar. Cancerous pulmonary adenomatosis, alveolar cell carcinoma of lung, Jagziekte? (Stephens and Shipman), 589

Adie, George C. (with Childress, William G.) Plasma cell tumors of mediastinum and lung, 794

Alexander, John. Discussion of chronic "spontaneous" pneumothorax, 195

Discussion of pulmonary resection for metastatic malignant lesions, 676

Allbritten, Frank F., Jr. (with Lipshutz, Herbert, Miller, Bernard J., and Gibbon, John H., Jr.). Blood volume changes in tuberculous patients treated by thoracoplasty, 71, 79

Allen, Lane. Transpleural muscles, 290

Alveolar cell carcinoma of lung, Jagziekte? cancerous pulmonary adenomatosis; pulmonary alveolar adenomatosis (Stephens and Shipman), 589

ventilation perfusion relationships after pneumonectomy, pulmonary circulation and (Cournand, Riley, Himmelstein, and Austrian), 80

American Association for Thoracic Surgery:

board of thoracic surgery, 166, 332

fellowship for research in tuberculosis (James Alexander Miller), 322

list of officers, 973

notice of 30th annual meeting, 332

31st annual meeting, 973

program, 30th annual meeting, 652

tumor registry committee, 332

Anastomoses, experimental study of blood supply of esophagus and its relation to esophageal (Shek, Prietto, Tuttle, and O'Brien), 523

Anastomosis, inlying rubber tube after esophageal (Deaton, Postlethwait, Bradshaw, and Williams), 649

treatment of short esophageal strictures by resection and end-to-end (Tuttle and Day), 534

Anesthesia in experimental thoracic surgery, apparatus for (Hanlon, Johns, and Thomas), 887

Anesthetic blocking of vagus, sympathetic, and phrenic at neck in thoracic surgery—its protective action on blood pressure (Soave), 157

Aneurysm of first part of left subclavian artery (Temple), 412

Aortic valve, artificial (Campbell), 312

Apicolysis in thoracoplasty, an evaluation of (Hagn-Meincke), 853

Apparatus for anesthesia in experimental thoracic surgery (Hanlon, Johns and Thomas), 887

Arey, J. B. (with DeBakey, Michael, and Brunazzi, R.). Successful removal of lower accessory lung, 304

Arteries to lung associated with congenital pulmonary abnormality, anomalous (Bruwer, Clagett, and McDonald), 957

Arteriovenous fistula of lung (Carswell), 789

Artery, aneurysm of first part of left subclavian (Temple), 412

Aufses, Arthur. Discussion of pulmonary resection for metastatic malignant lesions, 678
Austrian, R. (with Cournand, A., Riley, R. L., and Himmelstein, A.). Pulmonary circulation and alveolar ventilation perfusion relationships after pneumonectomy, 80
Avery, E. E. Discussion of broncholithiasis, 244
Discussion of transthoracic thyroidectomy, 752

B

Bailey, Charles P. Discussion of combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 570
(with Glover, Robert P., and O'Neill, Thomas J. E.). Surgery of mitral stenosis, 16, 48
Basinger, Clair E. (with Phillips, Francis J., and Adams, William E.). Bronchiogenic carcinoma. I. Pathologic clinical correlative study of full-size mounts from operated carcinomas, 680
Baxter, S. G. (with Munro, D. D.). Benign fibroma of chest wall, 944
Beardsley, J. Murray. Use of tantalum plate when resecting large areas of chest wall, 444
Beecher, Henry K. (with Murphy, Anna J.). Acidosis during thoracic surgery, 50, 69
Berman, Robert A. (with Adelman, Milton H., and Touroff, Arthur S. W.). New method of automatic controlled respiration, 817
Berry, Frank B. Discussion of mesothelial mediastinal cysts, 768
Black, Harrison. Fibrosarcoma of bronchus, 123
Blades, Brian B. Discussion of chronic "spontaneous" pneumothorax, 197
Blood and nerve supply to esophagus (Swenson, Merrill, Peirce, and Rheinlander), 462
pressure, protective action on, anesthetic blocking of vagus, sympathetic, and phrenic at neck in thoracic surgery (Soave), 157
supply of esophagus and its relation to esophageal resection and anastomoses, an experimental study of (Shek, Prietto, Tuttle, and O'Brien), 523
volume changes in tuberculous patients treated by thoracoplasty (Allbritten, Lipshutz, Miller, and Gibbon). 71
Bogardus, George M. (with Adams, William E., and Phillips, Francis J.). Bronchiogenic carcinoma. II. Correlation of pathologic characteristics and clinical manifestation in unresectable and unexplored post-mortem lung tumors, 699
Boley, James O. (with Kittle, C. Frederick, and Schafer, Paul W.). Resection of intrathoracic "hibernoma," 830
Bradshaw, H. H. (with Deaton, W. Ralph, Jr., Postlethwait, R. W., and Williams, Robert W.). Inlying rubber tube after esophageal anastomosis, 649
Brantigan, O. C. Discussion of mitral stenosis, 47
(with Rigdon, H. L.). Sodium tetradecyl sulfate, azochloramide, and sulfanilamide mixture in prevention of empyema following pneumonectomy with contamination, 319
Brewer, Lyman A., III (with Dolley, Frank S., and Evans, Byron H.). Surgical management of chronic "spontaneous" pneumothorax, 167, 197
Brodkin, Henry A. Discussion of funnel chest and deformities of thoracic cage, 520
Bronchial epithelium, accidental cyst of chest wall lined with (Stemmermann and Duffy), 349
Bronchiectasis associated with anomaly of right pulmonary vein and right diaphragm (Drake and Lynch), 433
before and after lobectomy, bronchospirometric studies in (Long, Norris, Burnett, and Wester), 477
results of surgery in (Lambert), 246
surgical treatment of bilateral (Kergin), 257
Bronchiogenic carcinoma. I. Pathologic clinical correlative study of full-size mounts from operated carcinomas (Phillips, Basinger, and Adams), 680
II. Correlation of pathologic characteristics and clinical manifestation in unresectable and unexplored post-mortem lung tumors, (Bogardus, Adams, and Phillips), 699
Bronchospirometric studies in bronchiectasis, before and after lobectomy (Long, Norris, Burnett, and Wester), 477
Bronchospirometry in the lateral decubitus position (Rothstein, Landis, and Narodick), 821
Bronchostenosis, plastic reconstruction of tuberculous, with dermal grafts (Gebauer), 604
Bronchus, fibrosarcoma of (Black), 123
report of case diagnosed by bronchoscopy and treated by pneumonectomy (Carswell and Kraeft), 117
Bronfin, Gerald J. (with Dressler, Sidney H., and Grow, John B.). Pulmonary function studies before and after extrapleural pneumonolysis with plombage, 938
Brown, A. L. Discussion of funnel chest and deformities of thoracic cage, 519
Brunazzi, R. (with DeBakey, Michael, and Arey, J. B.). Successful removal of lower accessory lung, 304

Bruwer, Andre (with Clagett, O. Theron, and McDonald, John R.). Anomalous arteries to lung associated with congenital pulmonary abnormality, 957
Buckles, Maurice G. (with Lawless, Edward C.). Giant-cell tumor of ribs, 438
Bunch, George H., Jr. (with Coleman, Frank Philip). Acquired nonmalignant esophagotracheobronchial fistula, 542, 558
Burnett, W. Emory. Discussion of combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 571
Discussion of resection of esophagus, 540
(with Long, Joan H., Norris, Charles M., and Wester, Mary R.). Bronchospirometric studies in bronchiectasis, before and after lobectomy, 477
Burroughs, Mider G. (with Valle, Anibal Roberto). Mechanism of healing of lung tissue and its reaction to different suture materials, 324

C

Campbell, Darrell A. Reconstruction of anterior thoracic wall, 456
Campbell, J. Moore. Artificial aortic valve, 312
Carcinoma, bronchiogenic. I. Pathologic clinical correlative study of full-size mounts from operated carcinomas (Phillips, Basinger, and Adams), 680
II. Correlation of pathologic characteristics and clinical manifestation in unresectable and unexplored postmortem lung tumors (Bogardus, Adams, and Phillips), 699
Cárdenas, Consuelo (with Staines, Enrique). Streptomycin plus alkalinization of pleural cavity in treatment of tuberculous empyema, 891
Carswell, James, Jr. Arteriovenous fistula of lung, 789
(with Kraeft, Nelson H.). Fibrosarcoma of bronchus; report of case diagnosed by bronchoscopy and treated by pneumonectomy, 117
Cassel, M. A. (with Cunningham, R. T., and Weisel, Wilson). Foregut cyst of mediastinum, 138
Cervical ribs, familial incidence of (Purves and Wedin), 952
Chamberlain, J. Maxwell. Discussion of combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 569
(with Ryan, Thomas C.). Segmental resection in pulmonary diseases, 199, 224
Childress, William G. (with Adie, George C.). Plasma cell tumors of mediastinum and lung, 794
Chondrosarcoma of posterior mediastinum with hourglass involvement of spinal canal; resection and recovery (Weisel and Ross), 643
Churchill, Edward D. Discussion of resection of esophagus, 540
Chylothorax (Meade, Head, and Moen), 709
Clagett, O Theron. Discussion of pulmonary alveolar adenomatosis; cancerous pulmonary adenomatosis, alveolar cell carcinoma of lung, Jagziekte?, 602
(with Bruwer, Andre, and McDonald, John R.). Anomalous arteries to lung associated with congenital pulmonary abnormality, 957
(with Grindlay, John H., and Rydell, John R.). Permanent filling of dead space in pleural cavity after pneumonectomy, 391
(with Schmidt, Herbert W., and McDonald, John R.). Bronchолithiasis, 226
(with Seiler, Hawley H., and McDonald, John R.). Pulmonary resection for metastatic malignant lesions, 655
Coello, Alfred J. Transscapular thoracoplasty, 900
Coleman, Frank Philip. (with Bunch, George H., Jr.). Acquired nonmalignant esophagotracheobronchial fistula, 542
Congenital bronchoesophageal fistula persistent to adult life, an apparently (Morton, Osborne, and Klassen), 811
pulmonary abnormality, anomalous arteries to lung associated with (Bruwer, Clagett, and McDonald), 957
Conklin, William S. (with Watkins, Elton, Jr.). Use of Potts-Smith-Gibson clamp for division of patent ductus arteriosus, 361
Connolly, Maurice R. (with Forsee, James H.). Thoracoplasty and streptomycin in treatment of tuberculous empyema, 877
Cournand, Andre. Discussion of broncholithiasis, 245
(with Riley, R. L., Himmelstein, A., and Austrian, R.). Pulmonary circulation and alveolar ventilation perfusion relationships after pneumonectomy, 80
Cunningham, R. T. (with Cassel, M. A., and Weisel, Wilson). Foregut cyst of mediastinum, 138
Curry, John J. (with Fuchs, Job E.). Expectoration of a fibrosarcoma, 135
Curti, P. C. (with Poulsen, Thue). Treatment of simple spontaneous pneumothorax, 145
Cyst of chest wall lined with bronchial epithelium, accidental (Stemmermann and Duffy), 349
of mediastinum, a foregut (Cassel, Cunningham, and Weisel), 138

D

Dailey, J. E. Discussion of funnel chest and deformities of thoracic cage, 519

Daniel, Rollin A., Jr. Discussion of pneumonectomy followed by immediate thoracoplasty, 505

(with Williams, R. B., Jr.). Leiomyoma of esophagus, 800

(with Williams, R. B., Jr.). Leiomyoma of lung, 806

Davis, Edgar W. Discussion of broncholithiasis, 244

Discussion of pulmonary alveolar adenomatosis; cancerous pulmonary adenomatosis, alveolar cell carcinoma of lung, Jagziekte?, 602

Day, J. C. (with Tuttle, W. M.). Treatment of short esophageal strictures by resection and end-to-end anastomosis, 534

Deaton, W. Ralph, Jr. (with Postlethwait, R. W., Bradshaw, H. H., and Williams, Robert W.). Inlying rubber tube after esophageal anastomosis, 649

DeBakey, Michael (with Arey, J. B., and Brunazzi, R.). Successful removal of lower accessory lung, 304

Decker, H. Ryerson. Discussion of pulmonary alveolar adenomatosis; cancerous pulmonary adenomatosis, alveolar cell carcinoma of the lung, Jagziekte?, 600

Evaluation of extrapleural pneumonolysis and paraffin plombage for chronic pulmonary disease, 629

Dermal grafts, plastic reconstruction of tuberculous bronchostenosis with (Gebauer), 604

Diaphragm, temporary high position of (Meyler and Huizinga), 283

Dolley, Frank S. (with Brewer, Lyman A., III, and Evans, Byron H.). Surgical management of chronic "spontaneous" pneumothorax, 167

Domm, Sheldon E. Discussion of chronic "spontaneous" pneumothorax, 197

Drake, Emerson H. (with Lynch, Joseph P.). Bronchiectasis associated with anomaly of right pulmonary vein and right diaphragm, 433

Drash, E. C. (with Hyer, Harry J.). Mesothelial mediastinal cysts, 755, 768

Dressler, Sidney H. (with Bronfin, Gerald J., and Grow, John B.). Pulmonary function studies before and after extrapleural pneumonolysis with plombage, 938

Duffy, Robert W. (with Stemmermann, Grant N.). Accidental cyst of chest wall lined with bronchial epithelium, 349

Dugan, David J. (with Samson, Paul C., and Heaton, Leonard D.). Mediastinal "tuberculoma," 333

E

Ellis, Laurence B. (with Harken, Dwight E., and Norman, Leona R.). Surgical treatment of mitral stenosis. II. Progress in developing controlled valvuloplastic technique, 1

Emerson, E. C. (with Merendino, K. Alvin). Aortoesophagogastric fistula, unusual complication of esophagogastrostomy performed under aortic arch following esophageal resection for carcinoma, 405

Empyema, actinomyces in putrid (Rabin and Janowitz), 355

following pneumonectomy with contamination, sodium tetradecyl sulfate, azochloramide, and sulfanilamide mixture in prevention of (Rigdon and Brantigan), 319

streptomycin plus alkalinization of pleural cavity in treatment of tuberculous (Staines and Cárdenas), 891

thoracoplasty and streptomycin in treatment of tuberculous (Connolly and Forsee), 877

Esophageal anastomosis, inlying rubber tube after (Deaton, Postlethwait, Bradshaw, and Williams), 649

motility in surgical treatment of megaesophagus, role of (Puppel), 371

resection for carcinoma, aortoesophagogastric fistula, unusual complication of esophagogastrostomy performed under aortic arch following (Merendino and Emerson), 405

strictures by resection and end-to-end anastomosis, treatment of short (Tuttle and Day), 534

varices, further observations on packing of mediastinum for (Garlock and Som), 572

Esophagitis, nonspecific granulomatous (regional), (Franklin and Taylor), 292

Esophagogastrostomy performed under aortic arch following esophageal resection for carcinoma, aortoesophagogastric fistula, unusual complication of (Emerson and Merendino), 405

Esophagotracheobronchial fistula, acquired nonmalignant (Coleman and Bunch), 542

Esophagus and its relation to esophageal resection and anastomoses, experimental study of blood supply of (Shek, Prietto, Tuttle, and O'Brien), 523

blood and nerve supply to (Swenson, Merrill, Peirce, and Rheinlander), 462

combined abdominal and right thoracic approach to lesions of middle and upper thirds of (Kent and Harbison), 559

leiomyoma of (Daniel and Williams), 800

Evans, Byron H. (with Brewer, Lyman A., III, and Dolley, Frank S.). Surgical management of chronic "spontaneous" pneumothorax, 167

F

Fibroma of chest wall, benign (Baxter and Munro), 944
Fibrosarcoma, expectoration of (Curry and Fuchs), 135
of bronchus (Black), 123
report of case diagnosed by bronchoscopy and treated by pneumonectomy (Carswell and Kraeft), 117
Fistula of lung, arteriovenous (Carswell), 789
persistent to adult life, apparently congenital bronchoesophageal (Morton, Osborne and Klassen), 811
Forsee, James H. Discussion of surgical treatment of bronchiectasis, 268
surgical treatment of round tuberculous pulmonary lesions (tuberculomas), 724
(with Connolly, Maurice R.). Thoracoplasty and streptomycin in treatment of tuberculous empyema, 877
Fox, Robert T. Discussion of pulmonary alveolar adenomatosis; cancerous pulmonary adenomatosis, alveolar cell carcinoma of lung, Jagziekte?, 603
Franklin, R. H. (with Taylor, Sewlyn). Nonspecific granulomatous (regional) esophagitis, 292
Fuchs, Job E. (with Curry, John J.). Expectoration of a fibrosarcoma, 135
Funnel chest and allied deformities of thoracic cage (Lester), 507

G

Gaensler, Edward A. (with Sarnoff, Stanley J., and Maloney, James V., Jr.). Electrophrenic respiration. IV. Effectiveness of contralateral ventilation during activity of one phrenic valve, 929
Garlock, John H. Discussion of combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 568
(with Som, Max L.). Further observations on packing of mediastinum for esophageal varices, 572, 587
Gault, Edwin S. (with Sano, Machteld E., and Weiss, Edward). Pleural mesothelioma, 783
Gebauer, Paul W. Plastic reconstruction of tuberculous bronchostenosis with dermal grafts, 664
Giant-cell tumor of ribs (Buckles and Lawless), 438
Gibbon, John H., Jr. Discussion of acidosis during thoracic surgery, 69
Gibbon—Cont'd
Discussion of combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 569
Discussion of resection of esophagus, 540
(with Allbritten, Frank F., Jr., Lipshutz, Herbert, and Miller, Bernard J.). Blood volume changes in tuberculous patients treated by thoracoplasty, 71
(with Healey, John E., Jr.). Intrapericardial anatomy in relation to pneumonectomy for pulmonary carcinoma, 864
Glover, Robert P. Discussion of segmental resection, 222
(with Bailey, Charles P., and O'Neill, Thomas J. E.). Surgery of mitral stenosis, 16
Goldman, Alfred. Discussion of chronic "spontaneous" pneumothorax, 197
Discussion of mediastinal "tuberculoma," 348
(with Segal, J., and Sherman, Leon H.). Thoracoplasty, 270
Gordon, Joseph. Discussion of surgical treatment of bronchiectasis, 265
Grace, A. J. Discussion of broncholithiasis, 244
Discussion of mediastinal "tuberculoma," 347
Discussion of mitral stenosis, 46
Discussion of transthoracic thyroidectomy, 752
Graham, Evarts A. Discussion of pulmonary alveolar adenomatosis; cancerous pulmonary adenomatosis, alveolar cell carcinoma of lung, Jagziekte?, 599
Granulomatous (regional) esophagitis, nonspecific (Franklin and Taylor), 292
Grindlay, John H. (with Clagett, O. Theron, and Rydell, John R.). Permanent filling of dead space in pleural cavity after pneumonectomy, 391
Grow, John B. (with Dressler, Sidney H., and Bronfin, Gerald J.). Pulmonary function studies before and after extrapleural pneumonolysis with plombage, 938
Guptill, Plimpton Discussion of mesothelial mediastinal cysts, 768

H

Hagn-Meincke, F. Evaluation of apicolysis in thoracoplasty, 853
Late results in four hundred twenty tuberculous patients subjected to thoracoplasty, 837
Haight, Cameron. Discussion of acquired nonmalignant esophagotracheobronchial fistula, 558

Hanlon, C. Rollins (with Johns, Thomas N. P., and Thomas, Vivien). Apparatus for anesthesia in experimental thoracic surgery, 887
Harbison, Samuel P. (with Kent, Edward M.). Combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 559, 571
Harken, Dwight E. Discussion of mitral stenosis, 47
(with Ellis, Laurence B., and Norman, Leona R.). Surgical treatment of mitral stenosis. II. Progress in developing controlled valvuloplastic technique, 1
Harper, F. R. Discussion of management of chylothorax, 720
Hart, Deryl. Discussion of surgical treatment of bronchiectasis, 268
Discussion of transthoracic thyroidectomy, 751
Harter, John S. Discussion of acquired nonmalignant esophagotracheobronchial fistula, 557
Head, Jerome. Discussion of bronchiogenic carcinoma, 698
Discussion of broncholithiasis, 243
Discussion of funnel chest and deformities of thoracic cage, 521
(with Meade, Richard H., Jr., and Moen, Chester W.). Management of chylothorax, 709
Healey, John E., Jr., (with Gibbon, John H., Jr.). Intrapericardial anatomy in relation to pneumonectomy for pulmonary carcinoma, 864
Heaton, Leonard D. (with Samson, Paul C., and Dugan, David J.). Mediastinal "tuberculoma," 333
Hernia, roentgenologic manifestations of parasternal omental (Stewart), 399
Hibernoma, resection of an intrathoracic (Kittle, Boley, and Schafer), 830
Himmelstein, A. (with Cournand, A., Riley, R. L., and Austrian R.). Pulmonary circulation and alveolar ventilation perfusion relationships after pneumonectomy, 80
Holinger, Paul. Discussion of funnel chest and deformities of thoracic cage, 521
Holman, Emile. Discussion of blood volume changes in tuberculous patients treated by thoracoplasty, 79
Hughes, Felix A., Jr. Discussion of chronic "spontaneous" pneumothorax, 196
Discussion of mesothelial mediastinal cysts, 768
Discussion of segmental resection, 223
Huizinga, Eelco (with Meyler, L.). Temporary high position of diaphragm, 283
Hydatid disease, treatment of pulmonary (Susman), 422
Hyer, Harry J. (with Drash, E. C.). Mesothelial mediastinal cysts, 755

I

Instrument for passing ligatures (McCorriston), 489
Intercostal incision in transpleural operation (Weinberg and Kraus), 769

J

Jackson, T. L. Discussion of plastic reconstruction of tuberculous bronchostenosis with dermal grafts, 623
Jagziekte? pulmonary alveolar adenomatosis; cancerous pulmonary adenomatosis, alveolar cell carcinoma of lung (Stephens and Shipman), 589
Janes, Ernest. Discussion of transthoracic thyroidectomy, 753
Janes, R. M. Discussion of surgical treatment of bronchiectasis, 266
Janowitz, Henry D. (with Rabin, Coleman B.). Actinomyces in putrid empyema, 355
Johns, Thomas N. P. (with Hanlon, C. Rollins, and Thomas, Vivien). Apparatus for anesthesia in experimental thoracic surgery, 887
Johnson, Julian. Discussion of combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 570

K

Kay, Earle B. Discussion of combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 570
Kelley, Winfield O. Phrenic nerve paralysis; special consideration of accessory phrenic nerve, 923
Kent, E. M. Discussion of further observations on packing of mediastinum for esophageal varices, 587
(with Harbison, Samuel P.). Combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 559, 571
Kergin, Frederick G. Discussion of transthoracic thyroidectomy, 751
Surgical treatment of bilateral bronchiectasis, 257, 269
Kisner, Wendell H. (with Reganis, John C.). Pericardial celomic cyst, with symptoms, 779
Kittle, C. Frederick (with Boley, James O., and Schafer, Paul W.). Resection of intrathoracic "hibernoma," 830
Klassen, Karl P. (with Morton, Douglas R., and Osborne, Johnston F.). Apparently congenital bronchoesophageal fistula persistent to adult life, 811

Klepser, R. G. Discussion of management of chylothorax, 722
Kraeft, Nelson H. (with Carswell, James, Jr.). Fibrosarcoma of bronchus; report of case diagnosed by bronchoscopy and treated by pneumonectomy, 117
Kraus, Alvin R. (with Weinberg, Joseph A.). Intercostal incision in transpleural operations, 769

L

Lam, Conrad R. Discussion of mesothelial mediastinal cysts, 767
Lambert, Adrian. Discussion of blood volume changes in tuberculous patients treated by thoracoplasty, 79
Discussion of pulmonary resection for metastatic malignant lesions, 679
Results of surgery in bronchiectasis, 246, 269
Landis, Francis B. (with Rothstein, Emil, and Narodick, Benjamin G.). Bronchospirometry in lateral decubitus position, 821
Lawless, Edward C. (with Buckles, Maurice G.). Giant-cell tumor of ribs, 438
Lees, William. Discussion of surgical treatment of bronchiectasis, 267
Leiomyoma of esophagus (Daniel and Williams), 800
of lung (Williams and Daniel), 806
Lesions of middle and upper thirds of esophagus, combined abdominal and right thoracic approach to (Kent and Harbison), 559
pulmonary resection for metastatic malignant (Seiler, Clagett, and McDonald), 655
Lester, Charles W. Funnel chest and allied deformities of thoracic cage, 507, 522
Lindskog, Gustaf E. Discussion of mesothelial mediastinal cysts, 768
Lipshutz, Herbert (with Allbritten, Frank F., Jr., Miller, Bernard J., and Gibbon, John H., Jr.). Blood volume changes in tuberculous patients treated by thoracoplasty, 71
Lobectomy and pneumonectomy in treatment of pulmonary tuberculosis (Sweet), 298
bronchospirometric studies in bronchiectasis, before and after (Long, Norris, Burnett, and Wester), 477
five year follow-up; mucocellular papillary adenocarcinoma of lung (Osserman and Neuhof), 875
Long, Joan H. (with Norris, Charles M., Burnett, W. Emory, and Wester, Mary R.). Bronchospirometric studies in bronchiectasis, before and after lobectomy, 477
Lung, mucocellular papillary adenocarcinoma of; lobectomy, five year follow-up (Osserman and Neuhof), 875
Lung—Cont'd
successful removal of lower accessory (DeBakey, Arey, and Brunazzi), 304
tissue and its reaction to different suture materials, mechanism of healing of (Valle and Mider), 324
Lynch, Joseph P. (with Drake, Emerson H.). Bronchiectasis associated with anomaly of right pulmonary vein and right diaphragm, 433

M

Mahon, Hugh W. (with Forsee, James H.). Surgical treatment of round tuberculous pulmonary lesions (tuberculomas), 724
Maier, Herbert. Discussion of symposium on resection of esophagus, 538
Maloney, James V., Jr. (with Sarnoff, Stanley J., and Gaensler, Edward A.). Electrophrenic respiration. IV. Effectiveness of contralateral ventilation during activity of one phrenic nerve, 929
Mason, James M., III. Discussion of symposium on resection of esophagus, 539
Maurer, Elmer R. Discussion of surgical treatment of round tuberculous pulmonary lesions (tuberculomas), 739
McCorrison, James R. An instrument for passing ligatures, 489
McDonald, John R. (with Bruwer, Andre, and Clagett, O. Theron). Anomalous arteries to lung associated with congenital pulmonary abnormality, 957
(with Seiler, Hawley H., and Clagett, O. Theron). Pulmonary resection for metastatic malignant lesions, 655
McIntyre, J. P. Observations on thoracoplasty during pregnancy, 882
Meade, Richard H., Jr. Discussion of chronic "spontaneous" pneumothorax, 194
Discussion of transthoracic thyroidectomy, 750
(with Head, Jerome R., and Moen, Chester W.). Management of chylothorax, 709, 723
Mediastinal cysts, mesothelial (Drash and Hyer), 755
"tuberculoma" (Samson, Heaton, and Dugan), 333
Mediastinum, and lung, plasma cell tumors of (Childress and Adie), 794
foregut cyst of (Cassel, Cunningham, and Weisel), 138
for esophageal varices, further observations on packing of (Garlock and Som), 572
with hourglass involvement of spinal canal, chondrosarcoma of posterior; resection and recovery (Weisel and Ross), 643

Mega-esophagus, role of esophageal motility in surgical treatment of (Puppel), 371
Merendino, K. Alvin (with Emerson, E. C.). Aortoesophagogastric fistula, unusual complication of esophagogastrostomy performed under aortic arch following esophageal resection for carcinoma, 405
Merrill, Keith, Jr. (with Swenson, Orvar, Peirce, E. Converse, II, and Rheinlander, Harold F.). Blood and nerve supply to esophagus, 462
Mesothelial mediastinal cysts (Drash and Hyer), 755
Mesothelioma, pleural (Sano, Weiss, and Gault), 783
Meyler, L. (with Huizinga, Eelco). Temporary high position of diaphragm, 283
Miller, Bernard J. (with Allbritten, Frank F., Jr., Lipshutz, Herbert, and Gibbon, John H., Jr.). Blood volume changes in tuberculous patients treated by thoracoplasty, 71
Mitral stenosis, surgery of (Bailey, Glover, and O'Neill), 16
surgical treatment of. II. Progress in developing controlled valvuloplastic technique (Harken, Ellis, and Norman), 1

Paine, John R. Discussion of combined abdominal and right thoracic approach to lesions of middle and upper thirds of esophagus, 568
Discussion of symposium on resection of esophagus, 537
Paraffin plombage for chronic pulmonary disease, evaluation of extrapleural pneumonolysis and (Decker), 629
Parker, E. F. Discussion of resection of esophagus, 538
Patent ductus arteriosus, use of Potts-Smith-Gibson clamp for division of (Conklin and Watkins), 361
Paulson, Donald L. Discussion of mediastinal "tuberculoma," 347
Peirce, E. Converse, II (with Swenson, Orvar, Merrill, Keith, Jr., and Rheinlander, Harold F.). Blood and nerve supply to esophagus, 462
Pericardial celomic cyst, with symptoms (Kisner and Reganis), 779
Phillips, Francis J. (with Basinger, Clair E., and Adams, William E.). Bronchiogenic carcinoma. I. Pathologic clinical correlative study of full-size mounts from operated carcinomas, 680, 698

Phillips—Cont'd
(with Bogardus, George M., and Adams, William E.). Bronchiogenic carcinoma. II. Correlation of pathologic characteristics and clinical manifestation in unresectable and unexplored post-mortem lung tumors, 699
Phrenic nerve paralysis; special consideration of accessory phrenic nerve (Kelley), 923
Plastic reconstruction of tuberculous bronchostenosis with dermal grafts (Gebauer), 604
Pleural cavity after pneumonectomy, permanent filling of dead space in (Grindlay, Clagett, and Rydell), 391
in treatment of tuberculous empyema, streptomycin plus alkalinization of (Staines and Cárdenas), 891
mesothelioma (Sano, Weiss, and Gault), 783
Plombage, pulmonary function studies before and after extrapleural pneumonolysis with (Dressler, Bronfin, and Grow), 938
Pneumonectomy, experiences with surgical resection of human carina, tracheal wall, and contralateral bronchial wall in cases of right total (Abbott), 906
followed by immediate thoracoplasty (Iverson and Skinner), 491
for pulmonary carcinoma, intrapericardial anatomy in relation to (Healey and Gibbon), 864
in treatment of pulmonary tuberculosis, lobectomy and (Sweet), 298
permanent filling of dead space in pleural cavity after (Grindlay, Clagett, and Rydell), 391
pulmonary circulation and alveolar ventilation perfusion relationships after (Cournand, Riley, Himmelstein, and Austrian), 80
with contamination, sodium tetradecyl sulfate, azochloramide, and sulfanilamide mixture in prevention of empyema following (Rigdon and Brantigan), 319
Pneumonolysis and paraffin plombage for chronic pulmonary disease, evaluation of extrapleural (Decker), 629
with plombage, pulmonary function studies before and after extrapleural (Dressler, Bronfin, and Grow), 938
Pneumothorax, surgical management of chronic "spontaneous" (Brewer, Dolley, and Evans), 167
treatment of simple spontaneous (Curti and Poulsen), 145
Postlethwait, R. W. (with Deaton, W. Ralph, Jr., Bradshaw, H. H., and Williams, Robert W.). Inlying rubber tube after esophageal anastomosis, 649
Potts-Smith-Gibson clamp for division of patent ductus arteriosus, use of (Conklin and Watkins), 361
Poulsen, Thue (with Curti, P. C.). Treatment of simple spontaneous pneumothorax, 145
Prietto, Carlos A. (with Shek, John L., Tuttle, W. M., and O'Brien, E. J.). Experimental study of blood supply of esophagus and its relation to esophageal resection and anastomosis, 523, 541
Pulmonary alveolar adenomatosis; cancerous pulmonary adenomatosis, alveolar cell carcinoma of lung, Jagziekte? (Stephens and Shipman), 589
carcinoma, intrapericardial anatomy in relation to pneumonectomy for (Healey and Gibbon), 864
circulation and alveolar ventilation perfusion relationships after pneumonectomy (Cournand, Riley, Himmelstein, and Austrian), 80
disease, evaluation of extrapleural pneumonolysis and paraffin plombage for chronic (Decker), 629
function studies before and after extrapleural pneumonolysis with plombage (Dressler, Bronfin, and Grow), 938
hydatid disease, treatment of (Susman), 422
lesions (tuberculomas), surgical treatment of round tuberculous (Mahon and Forsee), 724
resection for metastatic malignant lesions (Seiler, Clagett, and McDonald), 655
vein and right diaphragm, bronchiectasis associated with anomaly of (Drake and Lynch), 433
Puppel, I. Darin. Role of esophageal motility in surgical treatment of megaesophagus, 371
